

**Application for Summer Research Grants  
The Decorative Arts Trust**

The Summer Research Grant is a \$500 grant available to graduate students working on their thesis or dissertation. It should be used for the summer of their application year and comes with strings attached. The Decorative Arts Trust would like to receive a 500-600 word article reviewing the research for the Trust newsletter. This article, along with visuals of the objects - at least one of the student with an object, is due mid-October of the year of research. This Newsletter is sent to approximately 1200 Trust members and museums and libraries around the country. Applications are due, preferably by email (send to theTrust@decorativeartstrust.org), by April 30.
